PROGRESS TOWARD FINDING A CURE FOR A-T

Research into ataxia-telangiectasia continues, including projects such as:

- At the A-T Clinical Center at Johns Hopkins Hospital, experts in neurology, immunology, swallowing and pulmonology continue to evaluate children with A-T, improving their lives with expert care.
- Specialized scans of the brains of people with A-T are giving doctors information about the brain metabolism, giving researchers clues to possible treatments.
- Investigations into how the brain is wired (neurocircuitry) should determine if there are possible treatments, such as deep brain stimulation, that could help people with A-T move.
- Drugs that help other neurodegenerative disorders are being investigated to see if they could also help treat certain symptoms of A-T.

Projects such as these should help uncover life-improving therapies, and ultimately, a cure for A-T. And, because of similarities with other diseases, A-T research has important implications for Parkinson's, Alzheimer's, cancer, AIDS, metabolic syndrome, and diabetes.

SFHJA MAKES A BIG DIFFERENCE FOR CHILDREN WITH A RARE DISEASE

The continued support from the South Florida Hunters and Jumpers Association has improved the lives of children with ataxia-telangiectasia all over the world.

kids. hope. cure.

Kids: children or young people

Hope: a belief in a positive outcome related to events and circumstances in one's life. Hope implies a certain amount of despair, wanting, wishing, suffering or perseverance — i.e., believing that a better or positive outcome is possible even when there is some evidence to the contrary.

Cure: a completely effective treatment for a disease. Many treatments are not cures, and may merely provide temporary relief from symptoms rather than remove the underlying cause of the condition.

Ataxia-Telangiectasia "Ay-TACK-see-uh Teh-LAN-jick-TAY-sha"

The A-T Children's Project is a public 501(c)(3) non-profit organization that raises funds to support and coordinate biomedical research projects, scientific conferences and a clinical center aimed at finding a cure for ataxia-telangiectasia, a fatal genetic disease that attacks children causing progressive loss of muscle control, cancer and immune system problems.

Important Equine Health Information

It is recommended that all horses stabling on the PBIEC grounds arrive between 8:00 am and 5:00 PM. If it is necessary to arrive at any other time you must make arrangements with the show office prior to arrival. 561-793-5867. SFHJA & ESP, LLC management strives to provide an excellent showing environment. An integral part of an excellent showing environment includes healthy horses. Exhibitors, especially those traveling long distances, can contribute to that healthy environment by following some basic recommendations listed below. Please monitor our web site at www.equestriansport.com for any additional and possibly mandatory requirements.

- 1) Statement of Health (on Veterinarian's letterhead) must be signed and dated by Veterinarian within 7 days of arriving at the Facility. Must list horse's show name and date EHV 1&4 was last given. Multiple horses maybe listed on 1 page.
- 2) A current negative coggins test. Please renew before it expires, and not just before it is necessary to leave the state. It is strongly recommended that all horses be vaccinated for Equine EHV-1 (either modified live or killed vaccine) no sooner than 7 days prior and no later than 120 days prior to entering the show grounds. Most EHV-1 vaccines are only considered effective for 120 days. Check with your veterinarian about which vaccine you use.
- 3) Statement of Health must be signed by a licensed veterinarian within 7 days of first arrival at PBIEC, documenting that the horse has:
 - a. Received regular and consistent vaccination against Equine Influenza and EHV 1 & 4 with most recent booster being within 120 days and not within 7 days. Written statements from Vet explaining reasons for being boosted within 180 days MAY be accepted. **IN NO CASES MAY THE BOOSTER BE WITHIN 7 DAYS OR OUTSIDE OF 180 DAYS.**
 - b. Not shown symptoms of or been treated for EHV-4/1 within the past 28 days.
 - c. Not been at a facility under quarantine for EHV-4/1 or exposed to any horses showing symptoms of EHV-4/1 within the past 28 days
- 4) Current vaccination against WNV, EEE, WEE, Tetanus and Rabies is strongly recommended.
- 5) You should be able to document your horses normal temperature before arrival. Please do not ship horses with elevated temperatures. It is recommended that you establish a log of temperatures taken at least twice daily. If there is an elevated temperature for more than a 24 hour period, please consult your local Veterinarian immediately.
- 6) Every effort should be made to minimize stress and commingling of horses shipped long distances. Extra hours on a horse van, or moving from stable to stable is the fastest way to compromise your horses' and your neighbors horses' health.
- 7) Any horse on the show grounds with a fever of unknown origin or of suspicious origin must be reported to ESP, LLC Management. It is always better to err on the side safety. Isolation stalls will either be available on the grounds or at a local veterinary practice if the need arises.
- 8) Please take the time to review equine good hygiene practices and impress its importance to your groom in everyday care.

Pure Thoughts Horse Rescue

"The greatness of a nation and its moral progress, can be judged by the way its animals are treated."

- Mahatma Gandhi

Pure Thoughts Inc. is an all volunteer 501c3 non-profit organization dedicated to saving the lives of horses, yearlings and foals that were bound for slaughter, victims of starvation, neglected, abandoned or abused. To date, Pure Thoughts has helped save over 1,700 horses.

Above: Rain & Our Fever rescued from a feedlot in Louisiana this past May 2015. Both arrived extremely underweight, malnourished and having been abused. Months later, they are doing wonderfully, in great health and incredibly personable.

Above: Every year we participate in our nurse mare foal rescue. These are foals that were born from a mare that was bred for the sole purpose of providing milk to another, more expensive foal. The nurse mare's foal is no longer needed after they are born; they're left orphaned and ultimately die. The foals above are a few from our 2013 mission.

Above: Hasty Red was rescued from a severe abuse case, yet he now has healed from his trauma lives a full, peaceful life.

We've dedicated the past decade to helping change the life of horse's lives who were bound for grave endings. Our work may not change the world, but it will make a difference in how animal welfare is viewed and fought for in the future. Please help us continue this fight against cruelty.

We work hard to make sure each horse is given the proper care and so much love. Volunteers are the heart and soul of this organization and without their continued and valued support, would not be able to succeed in our rescue mission. Please consider coming out to meet the horses, volunteering, donating, adopting or sponsoring a horse. We are grateful if you're able to spread the word on ours and all animal rescue efforts.

I'm a girl who's made her name kicking butt in a harsh world completely alone. Most of the time, it works for me. But when I found myself alone with a broken back with three horses on the side of a freeway after my truck flipped over, I realized we all need help sometimes.

If EAF hadn't been there to help me carry on, I couldn't have made it alone.

A Message from the President

Dear Friends,

Thank you for your interest in the Equestrian Aid Foundation. I am so proud to be president of an organization with such a long history and such an active community of supporters. In nearly two decades we have given out over \$2 million to horsemen and women when they need it most.

But we cannot rest on our laurels. Every day members of our extended equestrian family are struggling to make ends meet while they deal with catastrophic illnesses and injuries. Thanks to your help, EAF is able to provide not only financial assistance but the tools necessary to help recipients get back on their feet and back in the proverbial saddle.

Every little bit helps, and I hope you know how wholeheartedly your generosity is appreciated.

Very truly yours,

Stephanie R. Bulger
EAF President

Jessica began her love of horses and riding when she was just 5 years old. Over the years she competed in hunter jumper and equitation divisions. During Collage, Jessica rode for the University of Central Florida on the equitation team and the western team. After graduating UCF with Manga Cum Laude honors, she immediately started her job with PEPSI CO. Jessica's beautiful smile lit up a room and she was an inspiration to all who knew her.

This award is dedicated to a young rider that demonstrates the characteristics that Jessica was known for- The recipient shall demonstrate good sportsmanship and be friendly, kind, fair & dedicated to the sport.
