

2016 Holiday & Horses Presidential Modification Update

A Presidential Modification in the application of GR115.1 has been approved for the 2016 Holiday & Horses CSI 4* during the ESP Holiday Series. This Presidential Modification will allow Holiday and Horses, approved to be held 11/29/2016- 12/3/2016, to count towards the 2017 competition year, in regards to USEF points, money won, and awards.

This Presidential Modification is being granted for the 2016 competition year only (the year in which this competition was calendared to run), based on the special circumstances surrounding the request and taking into consideration that no mileage conflicts are generated with the approval of this request.

The 2016 Holiday & Horses competition does not count for 2016 USEF points, money won, and awards and will only count for 2017.
